

Scilifelab The Svedberg seminar series spring 2024

Monday, January 22, at 15:15 in BMC, Trippelrummet

Prof. Karolin Luger

University of Colorado, USA

Titel: Nucleosomes for all: histone-based chromatin in noneukaryotic organisms

Host: Sebastian Deindl, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-karolin-luger/>

Monday, January 29, 15:15 in BMC C8:301

Assistant Prof. Alex Cagan

University of Cambridge, UK

Titel: The Impossibility of Whales: somatic evolution across the tree of life

Host: Matthew Webster, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-alex-cagan/>

Monday, February 26, at 15:15 in BMC

DDLS fellow Assistant Prof Tobias Andermann

Uppsala Universitet, Sweden

Title: Spatial biodiversity modeling with remote sensing and AI

Host: Joëlle Rüegg, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-tobias-andermann/>

Monday, April 8, at 15:15 in BMC

Prof. Susanne Gabrielsson

Karolinska Institutet, Sweden

Title: Extracellular vesicles in cancer therapy-role of checkpoint molecules

Host: Masood Kamali-Moghaddam, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-susanne-gabrielsson/>

Monday, May 6, at 15:15 in BMC

Associate Prof Benjamin Voigt

University of Pennsylvania, USA

Title: Genetics of Type 2 Diabetes: Advances, Prospects, and Challenges

Host: Marcel den Hoed, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-benjamin-voigt/>

Monday, May 20, at 15:15 in BMC**Prof. Tal Dagan**

Institute of general microbiology, Kiel University, Germany

Title: Multilevel drift and selection in the evolution of prokaryotic plasmids

Host: Helen Wang, UU and Maliheh Mehrshad, SLU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-tal-dagan/>

Wednesday, May 22 at 15:15 BMC Extra Seminar**Prof. John Lis**

Cornell CALS, USA

Title: Mechanisms of Transcriptional Regulation of Drosophila & Mammalian Genomes

Host: Anniina Vihervaara, KTH

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-john-lis/>

Monday May 27 at 15:15 in BMC**SciLifeLab fellow, Assistant prof. Wojciech Michno**

Uppsala Universitet, Sweden

Title: Following spatial and temporal chemical changes in neurobiology

Host: Stina Syvänen, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-wojciech-michno/>

Monday June 3 at 15:15 in BMC**Prof. James Prendergast**

The University of Edinburgh, UK

Title: Combining artificial intelligence approaches and cellular screens to define functional regulatory variation in mammalian genomes

Host: Gabriella Lindgren, SLU and Jennifer Meadows, UU

Read more: <https://www.scilifelab.se/event/the-svedberg-seminar-james-prendergast/>
